Summary

I couldn't find any printable models of paw patrol badges that come in one piece, so I decided to create them :)

2.89 hrs

2 pcs

0.20 mm

0.40 mm

PLA

35 g

Prusa MINI /
MINI+

You can change filament colour manually (I used PrusaSlicer) or you can just paint them. At first I used only 2 colours to print them all at once, then adjusted the model a little (added more plasticity) and printed the new version with colourful filaments.

I will be excited to see your results!

I printed it with 0,2 od 0,15mm layer, 15% infill, no brim.

Old files = black&silver with pictures on the printer

New version = colourful badges (of course you can also print them all at once with 2 colours)

Please let me know any feedback :)
