#### ENGLISH:

Let me introduce you to stackable plant support.

Usage? Are you a gardener? Are you going to prepare transplants for the season?

So you will definitely need plant support so that your plants don't fail and fall down.

Will they grow and outgrow the plant support? Never mind! You add another one (infinity).

If you are not going to use the model as a plant support, think about a possible price tag or plant marker in the garden or your local shop. Usage is up to you.

Printing? Absolutely simple and STLs waiting for you to download..

**Printing details:**

**Printer: PRUSA iMK3s+**

**Nozzle: 0,4**

**Print settings: 0,20mm (quality)**

**Material:PLA, PETG, ASA**

**Layers: 2**

**Infill: 15 -100%**

**Thickness: 3 mm**

**SLOVAK:**

Dovoľte mi predstaviť Vám podporu rastlín, ktorú môžeš nadstavovať donekonečna.

Využitie? Si záhradkár? Ideš si pripravovať priesady na sezónu?

Tak sa ti určite zídne opora rastlín, aby tvoje rastliny nepovädli.

Narastú a prerastú oporu? Nevadí! Pridáš ďalšiu.

Ak nevyužiješ model ako podporu rastlín, tak uvažuj nad možnou cenovkou alebo markerom rastlín v záhrade alebo svojom obchode. Využitie je na tebe 😊

Tlač? Absolútne jednoduchá a čaká ju tá STL na stiahnutie 😊
