Hello friends

who are still using the oldest anet a8 3d printer for those like me, we designed a simple spool holder with good strength and it fixes to existing screw mount of anet a8.

This spool holder is simple and very sturdy.

Components required

2 nos 3d printed parts. one is end cap and another is holder both stl file is uploaded.

120 mm 0.75" PVC pipe 1 no & 95 mm PVC pipe 1 No, ELBOW 1 no.

the picture shows how it is assembled and fixed to anet a8.

i hope this spool will help to some one thanking you.
