I created a vacuum adapter for Milwaukee M18 BOS 125 dust collector by sprayinpaint

- Link: <https://www.thingiverse.com/thing:4159070>

Its not a tight fit, so i used tape as filler to make it a tighter fit. Then used a hot glue gun as keep them together.

- I think i made the length of this adaptor 1in. I suggest you make it 2in or more so that it allows the vacuum to stay in place easier than when its just at a 1in length. I am printing at least 1 more of these and plan to glue it on.

The model he created was for the Milwaukee M18 BOS 125 but it works without issue on my Milwaukee M18 2648-20 Sander
