I decided to design and print the original Playstation (PS One) logo.

I did everything by eye, I made it using Inventor.

#### Pictures

- One image shows the original logo next to my 3D design.
- The smallest logo is at 50% uniform scaling in Cura
- The biggest logo is 100% uniform scale in Cura
- I have yet to clean up the 100% sized model, that's why it does not look that great

#### Print Setting

- 10% Cubic infill
- I did use supports with a brim
