This earring is designed in Fusion360. Inspiration for my design was a moon.

This is simple print but I advice to have nozzle 0,25 or max 0,4mm to print this. I sliced it to 0,6mm and the details could be better. I will soon update picture with 0,25mm nozzle.

The earring in photo is printed on Prusa Mini+, using Prusament Galaxy black PLA and Prusament Gold PLA.

I hope to see many photos in comments! Enjoy!
