A Elegoo Display Stand for your Desk.

Take a longer Cable like this one: <https://amzn.to/3tWDTCJ>

Take the right connectors (4p4c): <https://amzn.to/3O56dcH>

Cut off a plug of the cable and press a new plug but in reverse polarity.
(Just look carefully at the colors of the cables in the plugs of the supplied series cable)

You don't necessarily need extra pliers, but this makes it a little easier:
