## Summary

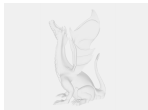

this is lihgt for the MN D90 ist made out of 10mm LED stripe

[Hobby & Makers](#) > [RC & Robotics](#)

I was trying to found some models that would fit my car well but i didnt find any so i made my self one i am using 12V 10mm wide led stripe and some m3 screws for mounting

I printed it in PLA but i would say you can print it with any material you want
