Top mounted fan duct for standard 70mm Muffin Fan for Asus RT-AC3100 or other AC88u router. This is not my original idea but I completely designed this version from scratch to fit a 70mm fan (what I had around). Hot glue it to the router or use zip tie like I did. This made a significant decrease in internal temp as this router runs very hot. My internal processor runs at 50C with this fan duct.

Material: PLA

Supports: None required.

File: STL (mm) Metric

Dim: 110.5mm x 70mm x 28mm
