Simple recreation of the Octowatch from the show Octonauts. I used a piece of scrap filament for the nose. Everything should fit snug and just needs a little bit of superglue to hold it together. You will need to print one of everything except the button, you'll need two. I bought a piece of 3/4" polyester webbing online for the watch band and it currently has self adhesive Velcro being used to attach it. I plan to improve the watch strap sometime soon.
