Simple but effective drag knife mount for the Universal tool mount. Has some flex so it does not break easily.

Fits the Universal tool mount from HicWic which I Remixed here for the MPCNC Primo: <https://www.printables.com/model/742403-universal-mount-for-mpcnc-primo-m5-screws-original>

Remixed the original model from jhitesma to be printed without supports.

Printed in PETG for some flex.

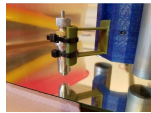

0.6mm nozzle

0.28mm layer height

3 walls
