Hey there! I've created a nifty little pliers holder that fits perfectly with any Honeycomb Storage Wall (HSW) setup. I've made two sizes: a smaller one at 140 mm and a bigger buddy at 200 mm.

Designed for practicality and ease, these holders will make sure your pliers are always at hand when you need them — no more rummaging around in drawers! Plus, they clip right onto your HSW, keeping your workspace neat and tidy.

If you like to play around with designs or adjust things to be just right, I'm also throwing in the CAD files. This way, you can tweak, twist, and turn things around to your heart's content.

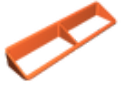

Attachments: CAD files for 140 mm and 200 mm pliers holder

Grab one of these holders and give your pliers a sweet new home on your wall. Happy organizing!
