Stand for an Henson AL13 Razor, inspired strongly by Henson's stand. The arms are sized to the handle of the AL13 Razor. There is a cutout on the bottom for a rubber pad and a second cutout inside to allow the addition of a weight mid print. That cutout is sized with tolerances to fit a 3in zinc mending plate from Everbilt: <https://www.homedepot.com/p/Everbilt-3-in-Zinc-Plated-Mending-Plate-4-Pack-13612/203170049>
