Summary

Holder for the Kreg In-Line Clamp.

[Hobby & Makers](#) > [Tools](#)

Tags: [honeycomb](#) [clamp](#) [kreg](#)

I designed this to be used with the [honeycomb wall storage system](#) by RostaP. The clamps hang off the holders backwards, with the flatter (top) part facing the wall.

I used a 4mm screw to attach it to honeycomb M4 insert.

Supports need to be ON.
