This case is for USB-C/PWR Splitter without Barrel jack (<https://www.tindie.com/products/8086net/usb-cpwr-splitter/>).

I will use this adaptor to build a PI-KVM (Hardware V2 <https://github.com/pikvm/pikvm#diy-getting-started>).

A M3x10mm screw is required.

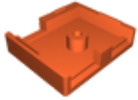

This remix is based on

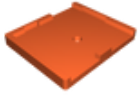

USB-C/PWR Splitter case
