This is a simple insert for Time Chase. It comes with a removable tray for the fuel crystals for easier access during the game.

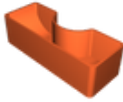

The insert supports sleeved cards, though thin (non-premium) sleeves will need to be used. I used Mayday standard sleeves for my set, and there is only about 1mm of space to the top of the insert.

3 of the traveler pawns and corresponding control disks go in the space in the top right and the other 3 in the space in the bottom right. The 10 event tokens go between them, and there is a slot for the first player marker beneath the cards.
