Various clips for cable management on a standard pegboard (from Lowes or Home depot; 9/32in holes, 1in on center). I used these for my retro-gaming consoles and finally said goodbye to the rat nest of wires I used to have hidden away.

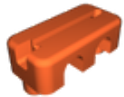

I used small cable zipties (4in type 21) to secure the clips through the pegboard holes.

I made various models for round cables (hdmi, power, usb, audio Jack 3.5, AV, SCART, etc) and rectangle cables (power supplies most of the time) and added the dimensions to the name of each file.

PRINT NOTES: make sure you print the clip with the round inserts that go in the pegboard facing up. No support needed. 15% infill.

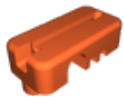

REQUEST: If you need a specific cable size please leave a comment with the number of cables and their sizes and I will add new clips to the list!
