## Summary

To fit the multiboard braket for pipe or dorvel

[Art & Design](#) > [Wall-mounted](#)

I finally come out whit the right one after two try. In the picture are also show with tool I use to cut EMT pipe. I use my favorite one PLA+. Standard print speed and few support just in case.

And if some one; want the off-set support I made to fix it back to me desks. lets me know, I would publish it later.
