Summary

Remix of @mhwlng_888536 and @debren27 build plate holders to work with the skadis wall organization system.

[3D Printers](#) > [Accessories](#)

Tags: [skadis](#) [buildplate](#) [buildplateorganizer](#) [buildplateholder](#)

If you are print this design from the STLs it requires the 4 copies of the universal skadis hook and two copies of the build plate holder, one will need to be mirrored from the first. Alternatively I've included a 3mf laid out out with all required parts.

Pictures is 235x235 springsteel sheets but this design could easily accommodate a wide variety of build plate sizes.

This remix is based on

Gridfinity build plate holder
