Summary

A small piece to protect the pins on a Kingst LA5016

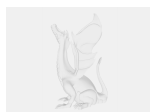

[Hobby & Makers](#) > [Electronics](#)

Tags: [logicanalyzer](#) [la5016](#) [kingst](#)

This is just a simple cover for the pins on your Kingst LA5016 logic analyzer. Other models that have the same 32-pin layout may fit.

The tolerances are really small so I recommend printing it with as small of a layer height as possible.
