Some time ago I bought a portable **Soldering Iron Kit** on Amazon. Since I was using it mostly at home, I designed an organizer box for it.

Model: Kaiweets Ket02

Amazon: [Link](#)

Caution: My power plug may be different from yours. Check with the pictures and the 3D model dimensions!

I printed the Box with eSUN PLA+ Grey and the Lid with eSUN PLA+ Olive Green.

No supports needed. Low infill possible.

Have fun with printing and post your makes! Cheers!
