updated 2. 4. 2024 | published 2. 4. 2024

Summary

Stand for holding your Galaxy Watch up at an angle while it charges.

[Gadgets](#) > [Portable Devices](#)

Tags: [samsung](#) [watch](#) [watchstand](#) [chargingdock](#) [chargingstation](#) [chargingcradle](#) [chargingstand](#) [watchholder](#) [galaxywatch](#) [galaxywatch5](#)

The fit for the charging puck is snug enough to hold it in place, but in case it isn't there's a spot for a magnet on the back.

The dimensions for the magnet are 10mm x 5mm.

Print Instructions:

- Have the face of the charger puck facing up
- Use supports

Note: This is specifically for the Galaxy Watch 5 charger. I'm not sure if the other charger versions are a different size.
