### Summary

I designed this ring to fix spools from falling down of the front roller AMS/ Hydra. This is my first design ever.

I designed this ring to fix spools from falling down of the front roller AMS/ Hydra. I use these rings in my Hydra Pro System and it works fine.

This is my first design ever.

Please don't put the ring in your nose. It was a nightmare for my doctor to remove it. LOL

Don't forget to like, push the heart and spread love to the world. Feel free to comment, but i like feedback from you!

Hallo und guten Tag,

ich benutze die Hydra Pro für meinem Bambu X1C. Leider nervt es, wenn die Spulen immer von dem Frontantrieb seitlich abrutschen. Die Lösung. Einfache 2mm breite Ringe!

Für die AMS/Hydra Pro werden 8 Stück benötigt.

Ich habe diese mini Modifikation bei meiner Hydra Pro verbaut und aktuell läuft es ohne Probleme.
