## Summary

Barebones speaker 'sleds' angled at 20 degrees for Audioengine A2s.

Some speaker 'sleds' (I affectionately call them) I threw together as one of my earliest CAD projects. Just print 2 sleds and one pair of rods for each set of speakers, and they just snap together. So yeah thats it, its really barebones.

When I feel it I'll release some smaller addons like wireless mice holders etc.

Some superglue maybe required :p
