Summary

Conversion mount to hold a hot air gun with an ikea lamp arm, no additional hardware required

[Hobby & Makers](#) > [Electronics](#)

Tags: [ikea](#) [hotairegun](#)

Screw on bracket for holding hot air gun at the end of ikea tertial lamp arm, no additional hardware required - reuses original screws.

Print with PETG or similar filament that can flex a little bit, infill >15%, layer height 0.2, supports are not required.

First you have to disassemble the lamp and remove the power cord (google "Tertial lamp disassembly" for detailed instructions) and then using original screws screw in the bracket as shown on the photos.

Tested with Atten 8586 rework station (bracket has internal 34mm diameter).
