Two versions are provided, the narrow one (25mm inner depth) seems to fit most secateurs.

The wider one (30mm inner depth) might be useful for some models with a larger external lock nut like like Fiskars.

Designed to be printed without supports, standing upright.

I use Clas Ohlson 409564-12 screws for mounting, [Montageskruv 4,2x13 mm | Clas Ohlson](#).
