## Summary

Simple drive cage for 4 2,5 inch drives, with honeycomb pattern ;)

[Gadgets](#) > [Computers](#)

Tags: [mount](#) [honeycomb](#) [pc](#) [ssd](#) [cage](#)

## SSD Drive Cage

for 4 2,5-Inch SSD drives. The foot has the same hole pattern as standard SSDs and can be mounted the same as drives would be.

## Printing:

Printed on a Prusa MINI with PCTG, but can be printed in other materials too.

Honeycomb pattern for the looks and increased print times ;)

## Assembly

standard m3 x 5mm screws can be used to attach the drives to the cage.

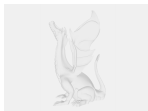

Happy Printing!

Fabian
