I made these for a friend that's expecting a little girl. Printed 2 of the baby doe coasters in blue and pink for the mum and dad. Would made a nice little gift for newly expecting parents.

Printing:

When I'm only printing a couple of something I like to make them solid. So I printed with 100% infill.

If you want to save a bit of material I'd suggest 2 walls and 50% gyroid infill.

Iron with caution it can really mess up thin layers and edges

Happy printing and cograts to the expecting parents in your life!
