Summary

Simple bowl with lid to protect your yarn ball from unauthorized paws.

Girlfriend got tired of the cats stealing her yarn ball when her projects were left out in the open. Made this simple bowl to protect the yarn ball from unauthorized paws, and it will keep the ball in place while working on a project as well.

I can be a bit tricky to get the spiral to print nicely, you will need supports. My first print turned out a bit wonky, but the supports could probably have been tinkered with to get better results. After some sanding it turned out just fine though.

Waiting for girlfriend approval.

Edit 1:

Girlfriend approved of the bowl. Success!

Someone asked for dimensions of the bowl, and for clarification:

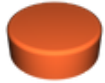

Total height of the bowl with lid is 120mm

Interior height with lid is about 113mm
