This is a coin jar designed to hold US and Canadian quarters (\$0.25 coin) but can be scaled up/down to hold other objects although I cannot guarantee the fit will be as tight.

THIS IS A WORK IN PROGRESS! The lid is a bit loose and needs to be adjusted to make it fit snug. I will probably make this change in a v2 sometime in the far future. If you would like to print then it prints fine on my Neptune 3 Pro.
