### Summary

This is a fun fish fidget for anyone who likes animals, articulated stuff, fidgets, and anything in-between.

This is a fun fish fidget for anyone who likes animals, articulated stuff, fidgets, and anything in-between. it makes a very flexible fidget by flexing more than 180 degrees when bent! it makes a thrilling gift if your on a time crunch because it only takes 90 minutes to print.

I would not recommend scaling this down as the joints and connections can be quite fragile. however it can be scaled up as much as you want without issue.

This design would not have been published at all if it weren't for Nerys's articulated anything kit which can be found here:
