updated 30. 1. 2024 | published 30. 1. 2024

### Summary

Cap to fit on a US size milk gallon with an integrated turbo funnel for easy use. Use for coolant, oil, fluids, etc.

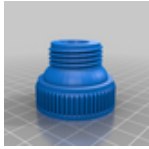

[Hobby & Makers](#) > [Automotive](#)

Tags: [funnel](#) [milk](#) [coolant](#) [disposal](#) [gallon](#) [jug](#)

**Works with US Gallon milk jugs and US Gallon windshield washer fluid containers. Push down and twist, some effort is likely necessary.**

Printed with the gallon cap side on the plate at 0.16 layer height due to the overhangs. Recommend inner/outer layer order, and some support may still be necessary for the roof of the jug cap depending on your bridge direction. Check your slicer visually to see if they are necessary. I printed at 15% gyroid infill and only 2 walls.
