## Summary

Gridfinity holder for drill bit box

[Hobby & Makers](#) > [Organizers](#)

Tags: [holder](#) [drill](#) [drillbit](#) [halter](#) [drillbitholder](#) [drillbox](#) [drillbitbox](#) [caseholder](#) [drillbitorganizer](#) [bohrer](#) [glueless](#) [gridfinity](#) [bohrerschachtel](#) [gluelessmagnet](#)

### Object description:

This is a gridfinity holder for my drill box.

The drill bit box is available here:

[Drill bit box](#)

The magnets don't need to be glued in. They can be easily snapped in and out from the side. For pushing it out I recommend to use a simple metal paper clip.

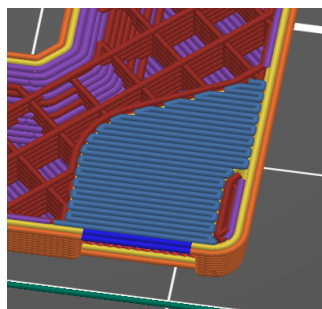

**Other gridfinity models using the same sidemounting system for the magnets:**

Description	Link
Gridfinity bases, sidemounted magnet:	<a href="#">Bases</a>
Gridfinity bins, full, sidemounted magnet:	<a href="#">Bins</a>

Description	Link
Gridfinity AA-Battery holder, normal & vasemode:	<a href="#">AA-Battery holder</a>
Gridfinity AAA-Battery holder, normal & vasemode:	<a href="#">AAA-Battery holder</a>
Gridfinity for Ruthex threaded insert tips:	<a href="#">Ruthex tips holder</a>
Gridfinity base for Allen key holder:	<a href="#">Allen key holder</a>

### Important notes:

Before printing, please check that the bridge section looks like this:

If you need a version that holds the drill case sideways, please let me know. I can make a model on demand.

### Reference:

The main dimensions are based on the [gridfinity master dimensions](#) defined by Zack Freedman.

### Print settings:

Material: PLA, PETG, ASA/ABS.

Resolution: 0,2mm or 0,3mm
