Summary

Cap to fit the spout on 500mL wash bottles with integrated spout.

[Hobby & Makers](#) > [Tools](#)

Cap to fit the spout on 500mL wash bottles with integrated spout.

Print Settings

Printer Brand:

Solidoodle

Printer:

Solidoodle 4

Rafts:

No

Supports:

No

Resolution:

0.3mm layer height

Infill:

90%

Notes:

Print with Ninjabflex or similar so it can stretch (and is resistant to alcohol and acetone if required). I recommend erring on the side of over-extrusion to ensure an air-tight fit. I went 10% over my default setting.

Post-Printing**Note:**

One connection hole is large than the other. Put that on first so it is trapped behind the smaller which snaps into the groove behind the spout connection.

Custom Section**Disclaimer**

Wash bottles are not recommended for long term storage. Even with these caps they might leak so I am not advocating using these for storage.
