Summary

model of the arms for the new new drone ghost trap for Ghostbusters Frozen Empire

[Costumes & Accessories](#) > [Cosplay & Costumes in general](#)

Based on watching the new trailer and taking a few stills, this is my best idea of a starting place for the arms on the new ghost trap drone. I removed the legs and flattened the bottom of the motor mount to allow for bottom mounted motors as pictured in the trailer. Guessing the frame mounting area of the arms will need to be reworked once more stills and images are available.
