When I first saw this climbing frame (<https://www.printables.com/model/716196-climbing-frame>) it immediatly reminded me of the logo of my favourite climbing club.

Inspired by his model, I digitized our logo and created my version of it in my CAD software.

It can be displayed on it's stand or hung on the wall without the stand.

Printed in PLA without any supports.

At 100% it fits tables of 220mm x 220mm
