updated 12. 1. 2025 | published 12. 1. 2025

Summary

Print yourself a mighty articulated orca. It is easy to print in one piece, no supports needed.

[orcinus](#)

Print yourself a mighty articulated orca. It is easy to print in one piece, no supports needed. It works well with basic PLA.

If you have a multi color system, i have included m3u files. Those are pre painted bu you have to adjust your printer Settings.

I don't recommend to scale it down because the articulation in the tail gets to small.

If you like orcas, check out [JD3Ds Orca](#) aswell!
