Summary

The stand is designed to hold the phone with or without a case. Accents on the side are printed separately

Household > Office

Tags: samsung phonestand phone apple phoneholder

Added a version with the accent embedded in the model MMU or AMS is needed unless you want to try and do a manual filament change

The stand is designed to hold the phone with or without a case. Accents on the side are printed separately and fitted in after being printed

No MMU or AMS is needed for dual-color print.

Accents are a tight fit so position them into place and push down on a hard flat surface for a flush fit.

Two more accent options with adjusted tolerance for people who are having issues with fitting them in the stand.

0.4mm Nozzle

Recommended 0.20mm layer height

Can be printed with or without bed supports for the bottom accent channel.

8% infill

May need a brim for Accents
