updated 24. 2. 2024 | published 24. 2. 2024

Summary

This is basically the same printable spool holder for the 5m, but made to work with the pro.

[3D Printers](#) > [Other Printer Parts & Upgrades](#)

Need 6xm3 bolts, not real sure what length I used, just wing it and it will work. Probably something like m3x6 for bolting it to the machine and m3x12 for bolting the two parts together.
