Summary

I modified the original Pro mount and combined it with the original mounting plate to create a more neat solution.

Tags: [mount](#) [ceiling](#)

Modified the original Pro mount and combined it with the original mounting plate. Many thanks to @Jsmaz3 and @DominikPalo for the original models.

I have added a model for the U6+ and one for the AC Pro and U6 Pro UniFi Access Points.

Best result with 40% infill and precision print profile (PrusaSlicer for AnkerMake M5)

You need the ceiling mount from the original design:
