Summary

Organize batteries as dead or alive

[3D Printers](#) > [Accessories](#)

Tags: [battery](#) [batteryholder](#) [batterycase](#) [fujifilmbattery](#)

A simple box designed to fit the Fujifilm NP-45S or an original OEM battery. You organize the batteries by whether they are charged or not. The slide on top fits in and stays with the help of (8) 3mm magnets. This slide area could be reconfigured to hold a strap instead.
