### Summary

Disassembly tool for Glock OEM Magazines.

[Hobby & Makers](#) > [Tools](#)

Tags: [gun](#) [glock](#) [glockmagazine](#) [gunsmith](#)

This is a tool to help you open the bottom of glock OEM magazines for servicing, those little locking tabs are so stupid!

It was a quick and dirty mod given I only had the stl to work with, but it turned out ok.

I uses one M3 15mm.

Still a pain to use, but at least I now have the screws for it lying around.

This was made from thing:6194586, [IronCanine](#)'s V3.

Size could be close to 147mm X 40mm X 8 MM

Requires no support

Print at 100% infill

Uses 13 grams

Print on flat face as it comes in.

I have found PLA+ holds up fine, but your mileage may vary.
