Printer: CR10S pro V2

Printing notes

I printed everything with a brim, just follow good practice for your printer.

Hardware

I used:

- Bolt: ISO 10642-M6 x 30 (x2)
- Bolt: ISO 4762-M3 x 10 (x2)
- Nut: ISO 10512-M6 (x2)
- M3 thread insert (x2)
- Bearing: 608zz (x2)

You could use different hardware but it might require some modification of hole diameter and depths
