### Summary

Ubiquiti Unifi G4 Doorbell Siding mount.

[Gadgets](#) > [Other Gadgets](#)

Tags: [ubiquiti](#) [unifi](#) [doorbell](#) [unifiprotect](#) [g4](#)

A mount for the G4 Door Bell Pro to be mounted to houses with siding. The work on the model was completed by sdbarker.

You will need to manually drill the holes for the mount. I did not insert new holes as I am just starting with even small modifications of models, but it does provide some additional flexibility.
