Do you know **Maison Martin**? It's a small French company that elaborates, produces and sells chili sauces, made from chili harvested in France.

The sauces are very pure and delicious. I think I bought every specialty they made so far.

I was just looking for something to hold the bottles together so I could carry them from where they are stored to the table where we can use them.

So this is just that: two models of a chili bottles holder. One designed to hold three bottles and the other to hold four.

Print Settings

Printer Brand:

Prusa

Printer:

I3 MK3S

Rafts:

No

Supports:

No

Filament:

Prusament PETG PETG

Notes:

I recommend using PETG instead of PLA. It's better when you come to food-related devices. And it can stand both higher and lower temperature than PLA (it will be OK in the fridge).
