This is my REMIX of the **Picture frame (A4)** that fit a **US Letter portrait** size picture or photo

- Model consists of
 - 4 bars (two sides, upper and lower one)
 - 4 connection pieces
 - 2 back panels
 - 1 3M holder
- Use the connection pieces to connect the bars

- Lower bar has two integrated latches that hold the picture from the back
 - Latches also allow to swap the picture
 - After folding down and removing the lower bar
- Grooves in the frame are 6mm wide
 - The solution assumes the use of 5mm back panel
 - You may print the included back panel (2x)
