Wendigo drinking coffee.

Was designed using Hueforge. You do not need a multicolor printer to make this. Just set up the slicer to pause for a filament change.

I used black, white, blue and red

Print at 100% infill with a layer height of 0.08mm with a base layer of 0.16mm

Filaments Used:

PLA Generic Black Transmission Distance: 0.2

PLA Hatchbox White Transmission Distance: 10

PLA crealty blue Transmission Distance: 2.6

PLA crealty red Transmission Distance: 2.5

PLA Hatchbox White Transmission Distance: 10

Swap Instructions:

Start with Black

At layer #6 (0.56mm) swap to White

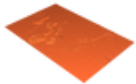

At layer #12 (1.04mm) swap to blue

At layer #14 (1.2mm) swap to red

At layer #18 (1.52mm) swap to White for the rest.

Be the reason the forest is haunted.
