Summary

Ogo Living coffee grinder cover

[Household](#) > [Kitchen](#)

Tags: [coffeegrinder](#)

This model is used to prevent the coffee from coming out of the grinder. It is made up of two parts.

A first part which covers the majority of the grinder which clips on.

A second part which allows the first part to be inserted without being blocked by the grinder and also allows the coffee to pass through. This last part slides on the first part thanks to a guide rail.
