Have you ever wanted to turn something off but didn't know where to turn? If so, this is just for you. You can print it and then just stick it with some double-sided tape onto something.

There are 2 versions:

1. **ON - OFF**
2. **OFF - ON**

Print settings:

- **Gyroid infill 15 - 20%**
- **3 walls**
- **No supports**
- **0.2 layer height**
- **You will need to switch color after the 12-th layer or you can just paint it after printing**

I hope you will like my design!
