I want to change my armrests in my IKEA JÄRVFJÄLLET V1 (with fabric seat) chair to more comfortable and adjustable VALLFJÄLLET armrests, but this armrest using smaller screws with different hole pattern so i need to design this adapter.

Printed from PLA with 4 perimeters and 20% gyroidal infill, strength test passed ;)

To mount this armrests with this adapter you need six M6x40 bolts and M6 hex nuts.
